# Mrs. Janice Thomas, Principal

To My Orange Lake Family:

This has truly been a trying school year, but working together to rebuild, we can weather the storm (Katrina).

We will continue to have a positive attitude and focus on high academic achievement. These values have been an integral part of Orange Lake and have heightened the awareness of our mission.

There is at times a need to overcome some past experiences by creating a new opportunity to change or

move forward. We can continue to excel by having a strong relationship among family, school, and community.

I would like to thank the Orange Lake staff, students, and parents for their cooperation and caring attitude that has been exhibited through these trying times. And I would like to encourage my students to continue to pursue excellence in all they do.

## Moss Point Homecoming Parade

Mrs. Scott is helping us decorate OLE's homecoming float.

Mrs. Erwin, Curtis Wright, Ebony Cherry, Morgan Harper, Choncie Scott, Zachary Taylor, and Carl Byrnes represented Orange Lake in the parade.

Ebony and Morgan look over the truck, while Mrs. Erwin peers over the top of the truck to check out everything!

Carl, Choncie, and Curtis put the finishing touches on the float. Good job guys!!

Ebony, Morgan, and Choncie are ready for the parade to start!

Zachary Taylor is just waiting for the parade to start.

Curtis Wright and Carl Byrnes are ready to get this parade started!

## Drug-Free Program

The kindergarten class shows everyone that they are DRUG FREE!!

The first grade listens as Mrs. Young says her part in the program.

The second grade holds a drug free banner as they listen to the program.

The fourth grade shows their drug free banner as they listen to the program.

The kindergarten class listens patiently to the drug free program.

A sixth grade student tells his part in the program.

Chad Williams reads his part in the program.

## Project Marine Discovery

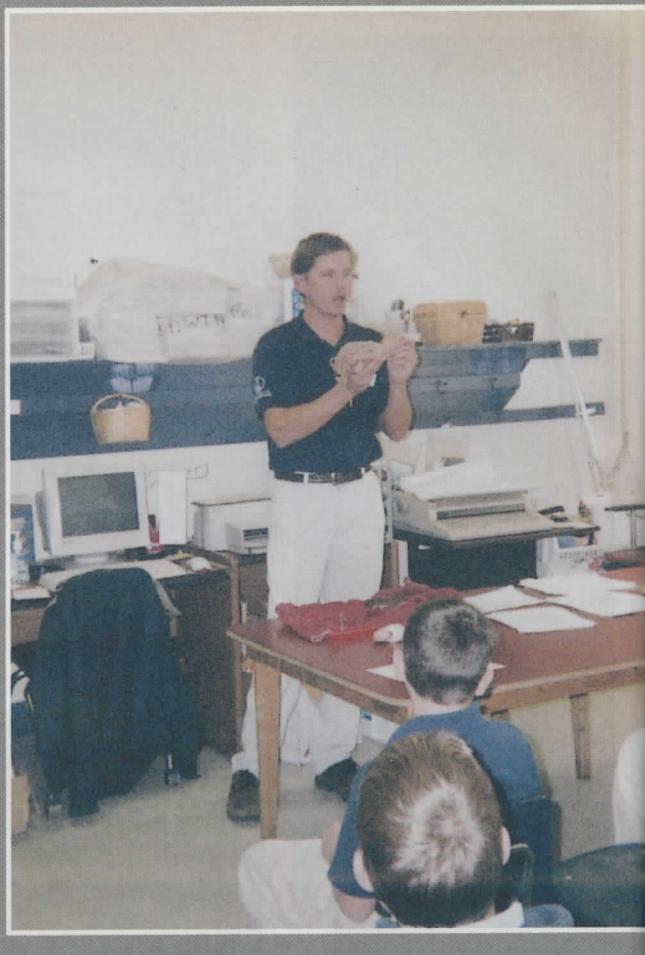

Staff members from the J.L. Scott Marine Education Center came to our school to teach us a little about marine wildlife.

One class was about the different kinds of sharks. This was the second grade learning in here.

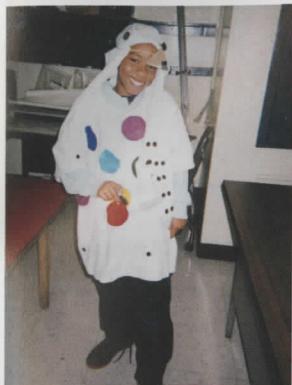

This class taught the students about wild animals and why it is important to let them be wild.

Another class learns about the sharks.

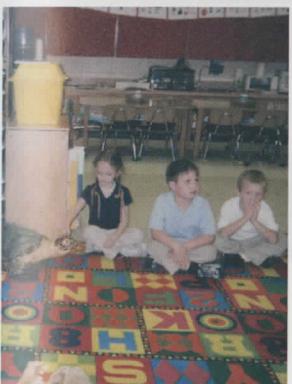

# Project Marine Discovery

Chad Williams shows off his octopus outfit. The students learned about the different body parts of an octopus.

One of the sixth grade boys shows off his octopus outfit. Each grade got to do this. It helped them learn the different body parts of an octopus.

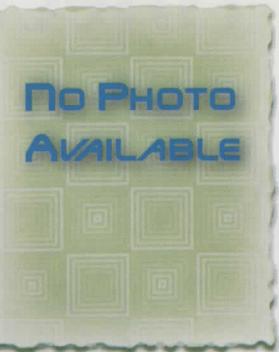

The kindergarteners are learning about different wild animals and why it is important to keep the wild animals in the wild.

Our students learned a lot of interesting facts about different marine life. They learned about all about sharks, wild animals, and in the last picture we learned about squids and octopuses. We even could touch the squid. yewww!!

# Valentine Dance 2-10-06

The play was designed to teach others the many great inventions of African Americans. Without African Americans, the world would be a very awkward and uncomfortable place. It also expressed that no one should be mistreated because of the color of their skin. Everyone is special and has their very own special uniqueness. Differences should not make you look down on an individual. It would be a very dull world if everyone was the same. Differences should make you appreciate and respect the lives of everyone. The sixth grade class hopes that everyone enjoyed the show and learned the lesson that was trying to be taught by the play "A Lesson Well Learned." They truly enjoyed performing and interacting with each other for the enjoyment and education for themselves and others.
